

**User's Guide to**

**Musculoskeletal Examination**

Written by Dr. Tim Flynn, Dr. Josh Cleland and Dr. Julie Whitman. This text covers the principles of diagnostic testing, medical screening and outcome instruments. Also covered are exams of each body region with companion diagnostic accuracy statistics. The companion CD-ROM includes clear video depicting each procedure. Illustrated. Softcover, 325 pages.

*User's Guide to Musculoskeletal Examination (#8842).....\$69.95*

**Timothy W. Flynn, PT, PhD, OCS, FAAOMPT**, is a widely published author, researcher and expert clinician who has studied under Philip Greenman, DO. Dr. Flynn is currently an Associate Professor in the Department of Physical Therapy at Regis University ([www.regis.edu/dpt](http://www.regis.edu/dpt)). Along with his colleagues he is an investigator in a number of clinical trials evaluating the diagnostic accuracy of musculoskeletal tests and the effectiveness of manipulative treatment approaches for spinal and extremity disorders. Dr. Flynn is the Coordinator of the Manual Therapy Fellowship at Regis University and Board Member of Evidence in Motion LLC; [www.evidenceinmotion.com](http://www.evidenceinmotion.com)

*Interactive CD-ROM programs by Dr. Julie Whitman, Dr. Tim Flynn, Dr. Rob Wainner and Dr. Jake Magel*

**Orthopaedic Manual Physical Therapy Management of the Cervical-Thoracic Spine & Ribcage**

Designed to guide the student or clinician through all aspects of Orthopaedic management including history, examination, diagnostic decision-making and treatment techniques. This manual also includes: ready-to-print patient handouts, condition-specific functional scales and evidence links to key literature sources.

*Orthopaedic Manual Physical Therapy Management of the Cervical-Thoracic Spine & Ribcage (#993CD) .....\$99.00*

**Orthopaedic Manual Physical Therapy Management of the Lumbar Spine, Pelvis and Hip Region**

This book is designed to guide the student or clinician through medical screening, physical examination, diagnostic tests and therapeutic interventions. Emphasis is placed on manipulative management of this region. High quality videos engage the viewer. Also included: ready-to-print patient exercises, outcome instruments, evidence summaries and links to key literature sources.

*Orthopaedic Manual Physical Therapy Management of the Lumbar Spine, Pelvis, & Hip Region (#994CD).....\$99.00*

**Spinal and Extremity Manipulation: The Basic Skill Set for Physical Therapists**

Written by Dr. Rob Wainner, Dr. Tim Flynn and Dr. Julie Whitman. Developed as an adjunct teaching/learning tool, this set includes a high quality CD-ROM featuring comprehensive video images and clear, instructional narration to facilitate the performance of covered procedures. Key features:

- Annotated evidence discussions
- Quality graphical handouts
- Force vector overlays

*Spinal and Extremity Manipulation: The Basic Skill Set for Physical Therapists (#995CD) .....\$59.00*

**Mobilization Notes – A Rehabilitation Specialist's Pocket Guide**

This waterproof and reusable pocket guide includes a write-on, wipe-off surface, evidence-based guidelines to enhance mobilization performance, a regional view of functional anatomy and kinematics, and an essential skill set for joint mobilization techniques with detailed descriptions and photographs. Book size 3 1/2" x 6 1/2", Softcover, 233 pages.

*Mobilization Notes – A Rehabilitation Specialist's Pocket Guide (#8733) .....\$28.95*

*CD-ROM minimum system requirements: Pentium 166-MHz or higher, Microsoft Windows, 98 or later and 32 MB RAM.*
