

*"The influence of Lewit and the late Vladimir Janda permeate this book—with both of these giants participating as contributors. This is a magnificent text and will become (as the first edition did) a classic."*

— Leon Chaitow  
Journal of Bodywork and Movement Therapy (10/06)

**Craig Liebenson, DC**, is the organizer of the Los Angeles College of Chiropractic Rehabilitation Diplomate Course. He has initiated MSc programs in rehabilitation in England and Australia. Dr. Liebenson maintains a private practice specializing in rehabilitation. For information on courses, contact: LACC, phone: (562) 902-3379; e-mail: [laccpgst@lacc.edu](mailto:laccpgst@lacc.edu)

**Rehabilitation of the Spine: A Practitioner's Manual**

This manual emphasizes a functional, outcome based approach to self-care. New to this edition are chapters on clinical/regional protocols, diagnostic triage, acute care, functional assessment, recovery care and biopsychosocial aspects. Modern rehabilitation methods such as McKenzie, stabilization and cognitive-behavioral are represented in this thorough, highly practical visual compendium. Every chapter has been re-written with new material from McKenzie, Kirkaldy-Willis, Lewit and Janda. Plus, new chapters written by renowned experts such as McGill, Hodges and Kolar are also included. DVD-ROM included. 750 illustrations and photos. Hardcover, 972 pages.

*Rehabilitation of the Spine*, 2nd ed. (#844-2).....\$119.00

**Manipulative Therapy**

This classic textbook on manual medicine by Karel Lewit has been completely revised and enlarged. This book is a comprehensive source of information relating to pathogenesis, diagnosis, indications and treatment methods, incorporating the latest research findings. Softcover, 436 pages.
